

license plate # will serve as like a "username" in MONGO

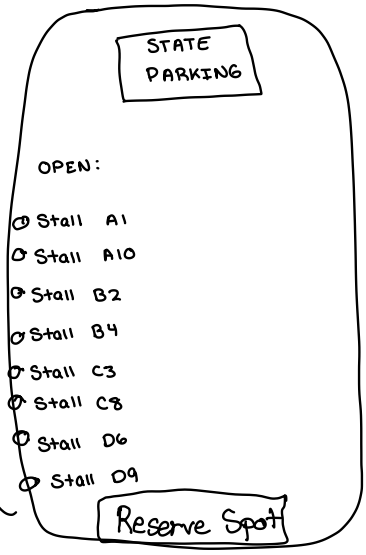

When you input your license plate, it will go through and search your plate under 3 different lists:
- Commuter
- Resident
- Faculty

feedback telling you what kind of parking is open to you based what list your parking pass is under

Activity tracker for how occupied the lot is
Green - over 60% of spots open
Yellow - 50-60% of spots full
Red - less than 40% of lots open

Calculator for percentage of open lots

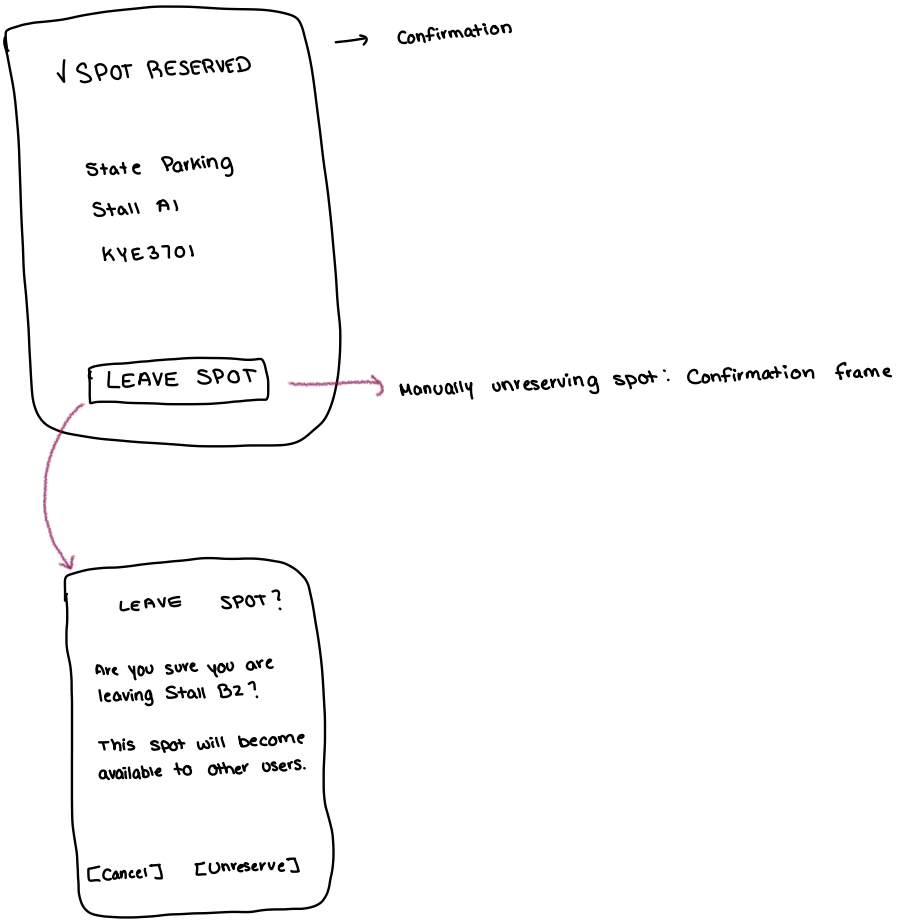

radio buttons: you can only click one option

- Notification is spot is full longer than expected
- iclicker geolocation (you cant reserve a spot if you are not in the mapped area) → for entrance: mapped area is parking lot

↓

Location Sharing is REQUIRED

Backup Option:
- For departure / unreserving of stall → mapped location is entire uptown campus
- notification saying "Your spot has been unreserved"
